1. Find electric and magnetic field corresponding to the scalar and vector potential given, respectively, by

$$V(\mathbf{r}, t) = 0, \quad \mathbf{A}(\mathbf{r}, t) = -\frac{1}{4\pi\epsilon_0} \frac{qt}{r^2} \hat{\mathbf{r}}$$

2. What is Poynting's vector? Explain its physical significance.
3. Show that the skin depth in a poor conductor ($\sigma \ll \omega\epsilon$) is independent of frequency.
4. What do you understand by evanescent wave?
5. When light is incident at the polarized angle, show that the reflected and refracted rays are perpendicular to each other.
6. What do you mean by Birefringence? Explain double refraction according to Huygens theory.
7. Check the state of polarization:
 $E_x = E_0 \sin(\omega t - kz)$
 $E_y = E_0 \cos(\omega t - kz)$

Up-Hill
BY CHRISTINA ROSSETTI

Does the road wind up-hill all the way?
Yes, to the very end.
Will the day's journey take the whole long day?
From morn to night, my friend.

But is there for the night a resting-place?
A roof for when the slow dark hours begin.
May not the darkness hide it from my face?
You cannot miss that inn.

Shall I meet other wayfarers at night?
Those who have gone before.
Then must I knock, or call when just in sight?
They will not keep you standing at that door.

Shall I find comfort, travel-sore and weak?
Of labour you shall find the sum.
Will there be beds for me and all who seek?
Yea, beds for all who come.

QUIZ PROGRAM

DATE: 09.04.2019

Department of History, Uluberia College successfully conducted a quiz competition on 09.04.2019 at the old seminar room of this college. There was a warm response from the students. As such, there was huge participations. The objective was not only of testing the knowledge within their syllabus but also to understand their awareness and cognition outside the boundaries of what are being taught in classrooms. There were nine groups, each consisting six students. Rest of the students were in audience who were also the participants. The question was not only related to syllabi. The students performed very well. The winners were given gifts and all the participants were given certificates. The students placed their requests that such kind of program could be held each year.

The important issues that came up in the meeting were:

- Maximising the interactions among students themselves and with the teachers during offline classes.
- Improved methods to enhance the thought processes of the students.
- Further impetus on Practical Classes.
- More rigorous evaluation on Computational Physics.
- Regular updates for the students on recent advancements in Physics to help them identifying their area of interest.
- Emphasis to be given on improving the quality of asking pertinent questions and thereby to enhance their skill of communications.
