

ULUBERIA COLLEGE

NAAC ACCREDITED

(Affiliated to University of Calcutta)

PROSPECTUS 2025

ABOUT THE COLLEGE

It was the year 1947, the country was just freed from the shackles of colonial oppression. Far away from Calcutta, in the distant rural Bengal, a Head Master of a local high school in Uluberia, dreamt of an educational institution which could be an easy access to those students who have just passed out from school. There was no institute of higher learning nearby.

It was his untiring and honest effort that helped him to succeed in building up the institute which can now boast as one of the largest higher educational institutes in the district of Howrah. His name was Sri Haripada Ghoshal, the person who first gave the essence of higher education in this area.

The college started its journey on 1st August, 1948 with a handful of boys and girls, Sri Ghoshal, was the founder Principal of the college. With the passage of time, Uluberia College as an institution of higher studies imparting Under Graduate courses to all aspiring learners from diverse communities and economic background has prepared, modified and upgraded itself to meet the academic challenges and changing demands of the learners and society. The acceptance of accreditation system by NAAC in colleges and universities has undoubtedly become much more beneficial for the improvement of academic atmosphere of the educational institutions and institution is no exception.

Besides efficiently carrying on the regular and traditional form of imparting UG courses in the Arts, Science and Commerce Stream, the curriculum has now diversified to conduct Post Graduate courses in Bengali and Mathematics. Post Graduation courses are also offered in the disciplines of Botany, Zoology, Environmental Science, Commerce, English, Bengali, History and Sanskrit in the Distant Mode. The Institution is affiliated to the University to the University of Calcutta with aids, assistance and grants from the Govt. of West Bengal and the University Grants Commission, New Delhi, The B.Ed. Department of the college was duly recognized by the N.C.T.E. in 2007.

"সর্বোচ্চ শিক্ষা হলো সেই শিক্ষা, যেটি শুধুমাত্র আমাদের তথ্য সম্বলিত জ্ঞানই প্রদান করে না, বরং তাঁর সাথে সাথে আমাদের জীবনকে বাস্তবতার সাথে সামঞ্জস্যপূর্ণ করে তোলে।"

--- বিশ্বকবি রবীন্দ্রনাথ ঠাকুর।।

"It's not in the stars to hold our destiny but ourselves"

-- William Shakespeare

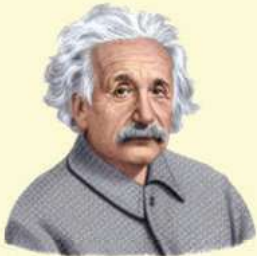

Once you start a working on something, don't be afraid of failure and don't abandon it. As soon as the fear approaches near, attack and destroy it. People who work sincerely are the happiest.

-- Kautilya

"Education does not only mean learning, reading, writing, and arithmetic, it should provide comprehensive knowledge."

-- Ishwar Chandra Vidyasagar

"There are only two ways to live your life. One is as though nothing is a miracle. The other is as though everything is a miracle."

-- Albert Einstein

An equation means nothing to me unless it expresses a thought of God.

--Srinivasa Ramanujan

Principal's Note

As we reflect on the rich history of Uluberia College, established in 1948, I am honoured to extend my heartfelt greetings to our students, faculty, and staff. Our institution has been a cornerstone of education in West Bengal, playing a pivotal role in shaping the academic landscape of our rural surroundings.

At Uluberia College, we take pride in upholding a legacy of excellence in education. Our commitment to knowledge dissemination, critical analysis, and practical application to formulate scientific attitude remains unwavering. Rooted in the cultural fabric of West Bengal, our college is not just a place of learning; it's a nurturing ground for holistic development.

As we navigate the challenges and opportunities of the 21st century, let us renew our dedication to academic rigour, inclusivity, and community engagement. Together, let us continue the tradition of producing not only knowledgeable individuals but responsible citizens who contribute meaningfully to society.

I encourage each student to seize the educational opportunities provided and forge a path towards a brighter future. The journey at Uluberia College is not just about acquiring a degree; it's about embracing a lifelong commitment to learning and making a positive impact.

*With regards,
Principal
Dr. Debasish Pal, M.Phil., Ph.D.
Uluberia College
Uluberia, Howrah (W.B.)*

The aim of education is to develop respect for humanity at large and to develop human values. 'Welfare and betterment of humanity is the ultimate goal of University education'. Education always has human appeal.

'Universities are dwelling houses of humanism and idealism.' They stand for democracy, nationalism and humanism. Man is above everything even above God. There is nothing higher than the man.

There is essential divinity in man. Every human individual has in him an eternal spark, a creative element. This is the spiritual nature of the man. This spiritual nature brings one individual closer to another. The purpose of Education is to recognise this spiritual quality and to work for its fulfilment. This spiritual nature of man helps to foster international peace, amity and friendship.

-S.P. Radhakrishnan

Vision of the Institution

Committed to holistic education, Uluberia College integrates technology in its diverse curriculum that nurtures critical thinking, creativity and ethical values through research and innovative teaching methods.

Community engagement, fundamental to our vision, will aim to cultivate social responsibility and global awareness.

We, further, envision a tech-enhanced, nurturing and inclusive campus culture that celebrates diversity, encourages lifelong learning, and empower students to excel academically, socially, and professionally.

Mission of the Institution

Our Mission is, thus, the Acquisition, Analysis and Application of knowledge for educational excellence. We aim at Knowledge:

- **Acquisition** to address challenges and opportunities of rural communities.
- **Analysis** to critically evaluate information, problem-solving and to integrate sustainable development principles.
- **Application** for sustainable growth through internships, projects, and fieldwork, aligning with sustainable development goals; collaborations with local communities to address specific needs, innovation and entrepreneurship, focused on sustainable solutions and research initiatives to develop sustainable practices in rural areas.

Value Framework

1. **Holistic Development:** Emphasis on the overall development of students, including cognitive, social, emotional, and physical aspects.
2. **Flexibility and Choice:** Provides flexibility in the choice of subjects and allows multiple entry-exit points in education.
3. **Quality Education:** Focuses on improving the quality of education through curriculum reforms, teacher training, and technology integration.
4. **Equity and Inclusion:** Strives to provide equal educational opportunities to all, irrespective of socio-economic background, gender, or location.
5. **Skill Development and Innovation:** Promotes the development of essential skills and a culture of research and innovation within educational institutions.

DEPARTMENT OF STUDIES AT A GLANCE

The College is affiliated to the University of Calcutta under the CBCS system for imparting instructions to the undergraduate courses in three faculties namely Arts, Science and Commerce and it has postgraduate course in Bengali, Mathematics and in B.Ed. departments. Each department is headed by the Head of the Department and functions with the assistance of the teachers of the respective departments. An Academic Committee working under the guidance of the Principal, consisting of faculties from every department takes decisions regarding various academic affairs as and when requires. The Vidyasagar University and The Netaji Open University under the distance education programme offers both undergraduate and postgraduate courses within our college campus. Most of the department maintains a Departmental library to help the students with various reference books.

UNDERGRADUATE

The Language Section

Department of English
Department of Bengali
Department of Sanskrit

The Humanities Section

Department of History
Department of Political Science
Department of Philosophy
Department of Geography
Department of Economics
Department of Education

The Science Section

Department of Physics
Department of Chemistry
Department of Mathematics
Department of Botany
Department of Zoology

Glimpses of Department

Department of English

The Department of English came into being as one of the firstlings of Uluberia College in 1948 with the General Section and English Honours course was introduced in 1996. In course of time the intake capacity of the Department expanded from 35 to 178. Since then, the Department boasted of its brimming evolution with regard to the time-tide transformations in the syllabus and the system. Previously the academic calendar followed the old regulations of the 2+1 and 1+1+1 course system in both the General and the Honours stream. New regulation of the CBCS course system was introduced in the year 2018. Since then, the department has been following the changed patterns of teaching-learning methods to meet the needs of the students. The department is not restricted in teaching the syllabi only but also assists the students in choosing career options and also takes care of the creative mind of the students through extra-curricular activities. The department regularly publishes wall magazines, journals and organizes departmental seminars. The department aims to achieve holistic excellence for its students through innovative ways of learning.

Glimpses of Department

Department of Sanskrit

In the eighth schedule of Indian constitution six Indian languages are recognized as “Classical Language”. Sanskrit is one of them. It was considered in the year 2005. Although India does not have any national language but on the National Language debate of Constituent Assembly Dr. Ambedkar brought an amendment on September 10, 1949 which proposed Sanskrit as ‘the official language of India. Latter it was dismissed by the Constituent Assembly and adopted Hindi as an Official Language of India by Article 343.

Sanskrit is the language in which ever first book of the world Rgveda was written. On astronomical grounds Maratha Kesari Bal Gangadhar Tilak dated Rgveda to 6000 BCE. Westerner Jacobi held that Vedic civilization flourished between 4500 BCE and 2500 BCE. Whatsoever it is, but we all have agreed that Rgveda was compiled before 1500 BCE. So there has no doubt on Sanskrit’s ancient heritage. This Indo Aryan Language is an ocean of gems, and we are privileged to come across some of them.

Uluberia College started its journey on 16th August, 1948 but our Sanskrit Department came to exist from the month of September, 2008 with approximately 60 General course students and a single teacher of it. Sanskrit Honours course was introduced on 2010. It strengthens the language section or the college and helps in the interaction and exchange of ideas among the three language departments.

Glimpses of Department

Department of History

The subject History was introduced in this college as a General course in 1948 and as an Honours course in 1962. This college is a long-established centre of learning, striving relentlessly to effectuate its cherished goals. The subject is so coveted as because the focus of history is on the fundamental unity of mankind despite differences in social organizations, mores, cultural traditions as well as similarity in human thought process and responses revealed in them. The aim is to rethink old problems, open up questions and locate the theme within historiographical debates and pose new issues of inquiry. Thus, history makes us aware of the many entangled threads of continuity and change that connect the present to the past. Such a holistic career-oriented programme helps facilitate the students to establish themselves as useful members to serve the society through their understanding and capabilities.

Glimpses of Department

Department of Political Science

Political Science was introduced as a general subject in 1957 and as an honours subject in 1962. Our students are hailed overwhelmingly from poor and weaker sections of the society, such as Scheduled Caste and Minority. We try our utmost to instill confidence among these students on their self-worth and generate interest on the subject by creating an informal, congenial atmosphere in the department. The Department encourages quiz, debates, discussion & departmental seminars for students. Political Science students gain a versatile set of skills that can be applied in a wide range of careers in central, states and local governments and also in law, business, non-profit associations, campaign management, polling, journalism, education and research.

Glimpses of Department

Department of Mathematics

The Department of Mathematics is among the glorious and prestigious departments of Uluberia College since its inception in the year 1960. For the establishment and employment of the students of our department, all the faculty members of this department have unanimously taken several legitimate steps from the very beginning of this department. In 1964, Honours curriculum was initiated in the department with a motive to provide them with the required degree of eligibility to apply for various professions. Thereafter, in 2008, we began the Masters course in Applied Mathematics (in distance mode under Vidyasagar University) to put our students in the research sector as well to put them in teaching profession at college or university level. Again, in 2018, we have started the Masters course in Pure Mathematics (in regular mode under University of Calcutta) to provide them better educational and career opportunities. For the establishment and employment of our students in the IT or corporate sectors, we have been introducing IT System, Data Science, Artificial Intelligence, Cyber Crime etc as Add-On courses in each semester.

Glimpses of Department

Department of Physics

Department of Physics was introduced as a general course in the year 1963 and as an Honours course in 1973. From its initiation the department has developed itself and encouraged young minds into this fascinating area of Physics over the years. The dedicated teachers, some of them engaged into research are a source of inspiration to the students. The department emphasizes on the study of the subject such that student can understand the basis and then they can grow themselves. Students are encouraged to go for research after post-graduation. As a result, many of our former students work as scientist in national and international institute.

Glimpses of Department

Department of Chemistry

The department started its journey with a general degree course in Chemistry in the year 1967 and honours course in 1968. It is one of the oldest and illustrious science departments of the college. The department is proud of its alumni strength and can boast of its infrastructural facilities. The Department of Chemistry is engaged in Choice Based Credit System CBCS, 2018 for its three-year undergraduate degree course (honours and general) affiliated to University of Calcutta. The system is designed specifically covering intricately the essential aspects as well as the vast areas of application that the subject imparts. The programme also opens up wide scope of creating interest among students for choosing a career in multiple avenues like teaching, research and industry.

Glimpses of Department

Department of Zoology

The Department of Zoology was introduced as a general course in 1984 and as an honours course in 1996. Master degree in Distance mode under Vidyasagar University was also held in the department from 2009 to 2018. At present, the department is in progress with honours and general course and glows as a diamond in the college and become a central importance through its rich infrastructure, laboratory, teachers, students' progression and modern teaching method. In the year of 2017, the Biotechnology Laboratory under BOOST scheme, Government of West Bengal was established within the department and this establishment starts a new age for the department and its teachers, ongoing and outgoing students, scholars from different colleges and universities. For smooth running of research work an Animal House has also been established on 2020 under the supervision of Government of India. An important event of the course curriculum is Zoological Excursion, Field Study and Project Works. A student of Zoology is welcome everywhere, be it Environmental Journalism, Forest Services, Agricultural Research Institute, Fishery Institute, Sericulture or such other Institutes as Microbiological Research Institutes etc.

Glimpses of Department

Department of Botany

The Department of Botany was introduced as a general course in 1984 and as an Honours course in 1996. From its initiation, the department had tried to develop and upgrade itself to keep pace with other science department. At the starting phase there were 20 students in general course and at the initial phase the honours course was started with 20 students. Currently there are seats and seats in 62 and 167 honours and general course respectively. We got a lot of respected teachers with us during this journey. Many of our students are well established and placated at educational sectors as well as other sectors.

Botany is a branch of Biology which deals with the study of plants and plant-like organisms like algae, fungi etc. It includes the scientific study of Plant Physiology, Structure, Classification, Genetics, Distribution, Economic Importance and Ecology and many more.

While studying Botany the students learn all these aspects of plants including its applications. Besides, the students will have greater opportunities open to them in higher studies and research along with better job prospects.

Bachelor of Education (B.Ed.) Section

The journey of B.Ed. Section of Uluberia College, Howrah, West Bengal, started in 1968. In 1969, it was for the first time that the students of this college appeared for their examination under the B.Ed. curriculum of University of Calcutta. Uluberia College is the first and one of the most renowned co-education Teachers' Training Institution of the district with the affiliation of the University of Calcutta. This is a Government aided, co-educational multi-faculty institution and the shrine of students of diverse communities, cultures and backgrounds. The department was duly recognized by the NCTE in 2008. In accordance to the new NCTE regulation 2014 (ERC/280.57/APE00688/B.Ed./2020/62543, DATED-03.03.2020), Uluberia College, B.Ed. section had been granted with 2 basic units (i.e. 100 seats for training). Over the years it has become a renowned teachers' training college of the district.

Glimpses of Department

Department of Physiology

In view of the scope, opportunity and promoting science subject in Howrah district, West Bengal, India, the Department of Physiology, Uluberia College, was established in the academic year 1983-1984, with the recommendation and financial assistance by Department of Higher Education, Govt. West Bengal, based on the two-year curriculum of the University of Calcutta. Two-year Bachelor of Science (General) course in Physiology (one of the subsidiary subjects) was started from the academic session 1983 – 1984 and first batch of B.Sc. (Bio) students passed out in the year 1985-1986.

Presently the Physiology course is running Three years Bachelor of Science (General) under CBCS curriculum and Three years Bachelor of Science (Multidisciplinary Courses of Studies) under CCF curriculum of University of Calcutta.

The Department of Physiology plays a pivotal role to the society through pursuit of education and learning at its highest levels of excellence. The departmental laboratories are well equipped and spacious with all necessary equipment and chemicals for conducting practical classes. Theory classes are taken in an interactive fashion as well as through audio-visual demonstration to make it more exciting for the students. All the present faculty members and staff members are dedicated and cooperative.

The students, who study Physiology as a part of their Honours Course or Study it as a General Subject, have ample scope of Jobs in Different Pathological Laboratory or Institutions. Besides this they can pursue teaching profession.

Glimpses of Department

Department of Economics

The Department of Economics was started in the year 1960 in the college with an aim to provide students with a basic understanding of economic concepts and contemporary problems associated with the nation's economy. Economics is one of the subjects that attracts many students from different disciplines of humanities, sciences, and commerce due to its subject matters. Department believes in providing a strong foundation to the students in economic theories, principles, and various economic phenomenon. We help learner to develop a sound concepts and tools to solve real world problems and make informed decisions. So far as a department we only offer a general elective course to the students from different disciplines.

Glimpses of Department

Department of Computer Science

The Department of Computer Science was introduced in 2010. The department is suitably equipped to meet the demands of the University of Calcutta undergraduate course. The total no. of computers available in Software Lab is 10. LAN facility, Printing & Internet facility etc. are available at Lab. The department aims to have a student to PC ratio of 1:1 in practical classes. This department also believes in motivating the students for higher studies to enhance their knowledge and expertise. Graduates find employment in the industry in the public sector, and also in educational institutes. However, most of the graduates opt for higher studies because they succeed in competitive exams like JECA, GATE etc.

College Library

Library and Reading Room

The Central Library of the College provides open access facility and it is partly automated. The Reading Room of the library is fully air-conditioned. The library has a rich collection of books of more than 28 thousand and around 25 journals and magazines are subscribed yearly. Bound volume of old journal is available for use. The library has a subscription N-LIST database. The library provides reading facility of book and journals, lending documents, reference service, internet services, photocopying facility and so on. Circulation activity is done online. Library as a part of the college has got the membership of British Council Library and American Centre Library. The students and the teachers can use those libraries after consulting the librarians. Online Public Access Catalogue (OPAC) helps the faculty and students to search the bibliographical databases on their own desks. Book Bank facility is provided to the needy students for borrowing text books from the library which can be kept throughout the Academic Session. Defacing books or scribbling inside the books are liable to punishment.

Location & Infrastructure

Location

The College has a locational advantage in being situated at the heart of this sub-divisional town of Uluberia and is easily accessible by train and bus from Kolkata and as well as Hooghly and Midnapore Districts. There are two railway stations, Fuleswar and Uluberia from where students and staff can avail Toto and autorickshaw to reach the college campus. Bus routes also conveniently connect the college with Bombay Road (NH-6).

Campus

The college has three storied main building with an auditorium, Haripada Mancha; one, two storied B.Ed. building and one, three storied administrative building with Commerce Department and one, two storied building containing Botany department and Ladies Common Room. There is a beautiful circular pond in front of the approach road towards the college campus and surrounding the pond, there is a sprawling garden with many coconut trees and flowering plants. The garden is maintained by a professional gardener thus giving a magnificent look to the college.

Gymnasium

The College can boast of a very well-equipped Gymnasium. Now it is open both for the Staffs and the students.

Common Room and Canteen

There are two large separate common rooms for boys and girls. The indoor Games facilities are available. Tea, tiffin and other foods are available at subsidised rate only for the current college students at the college can't.

Computer Centre

The college has one Computer Centre run in technical collaboration with the Institute of Computer Engineers (India). The Centre has good arrangements of effective theoretical and practical classes which are held regularly during scheduled days for all categories of students, both inside and out side the institution.

Generator

The college has one large capacity 85 KVA green set generator for uninterrupted supply of electricity as and when required.
